On the vegetable front in Belle Glade Thursday carcels brought in \$1.15; best grade corn, \$3.25; packed celery, \$1.75; golden beans, \$2.50 all stems beans \$1.50 up to \$1.75; black beans \$1.50 up to \$1.85 and pinto beans up to \$3.20.

Pahokee Elementary School by Gladys Murrell

Festival Labor Advertising Attendance

As we go through the various classrooms it is easy to know that the students are full of energy. Attendance averages in our school dropped lower during the month just ended than in any other month this year. Even so, some of our classes are over-enrolled. Recent visitors at Pahokee have marvelled at the number of students enrolled with their teacher; they think that the large number of pupils reported come in as a class groups, and are often surprised to discover 60, and sometimes as many as 80 pupils in a single class group. Among our students visiting this past week were Messrs. G. A. Singleton and John A. Wortham of Bethune-Cookman College in Daytona Beach. Singleton's wife, Mrs. Lillian Shore Elementary was in Glades.

Lost and Found Dept.
The tenth annual school egg hunt in Glades Egg Hunt had more than 20 dozen eggs contributed by students and friends. They were all hidden in various places ready to hide. So well were some of them hidden in fact, that even the Easter Bunny didn't know where to look for them. At the rate it was going, everyone had a fine time.

Class Quotas
The fourth grade is the only class that has gone over the top in raising their assessment for the year. The fifth and sixth grades are still within five dollars of reaching their goal. We hope that every class will report 100 percent. We need so many things; and with the curtailed budget it begins to look as if we won't be able to provide for all the things that we might have looked to the school board under normal conditions. At any rate, we are sure to thank the popular belief that the God-fearing who help themselves, and we are trying to reach our own goal before returning to school aid.

Temporary Faculty Staff

Everyone is working hard to produce one of the best school entertainments in the history of our school. When our program of Foilies is presented, the show is in the form of a Minstrel Review, and we believe that there will be something for everybody. Songs, dances, comedy and skits. Don't miss it. Plan to attend on both nights. The show will start at 8 p.m. on Friday, April 24th and 25th. As a special added attraction, valuable prizes will be given away both nights. Tickets will be placed on sale next Monday. Buy your ticket in advance. The first and sixth graders will have the important role of the Interlocutor or Middle Man, while the comedy will be played in regular style by Mr. and Mrs. Edward Gray, Arthur Lee Harper, Sammy Clarke and David Syldest. Tuneful, joyful and downright gay, the Foilies will bring a smile to everyone. Whatever you do, wherever you go, you can't afford to miss this show! Monday and Tuesday, April 24th and 25th at 8 p.m. We will be seeing you!

Glades Vocational High

The Science Club of Glades High was in charge of the chapel Monday. The devotional service was conducted by Rev. William George, pastor of the First Methodist Church. Drucilla Hines, Titusville; Willie Mae White, Smallpox, and Jamesene Poole, Port St. Lucie, were the speakers. The girls were busy preparing for their annual banquet. This year the theme was "Titusville". They are all set, that the banquet will be a great success.

The P.T.A. is working hard for the chorus and band concert. The date will be announced.

The P.T.A. has launched a scholarship drive to help one of the seniors through college. They're asking for the support of the business community.

On Wednesday of last week

the students of Glades Vocational High observed play day when they played host to Everglades Camp School from Pahokee. The games played were volleyball and soccer. The track events were postponed because of unfavorable weather. The band furnished music for the social which was enjoyed by everyone.

Look how you save with Dynaflow

FIRST thing you notice, of course, is the bother and effort Dynaflow Drive* saves.

Next, that Dynaflow saves you physically—after long trips you're less tired and tired, more relaxed.

But then, as the miles pile up—and this comes from cold, recorded fact—after Dynaflow's two years of public operation—you spot savings you hadn't expected . . .

You save on tires—because power application is steady, even. On clutch expense—the usual friction clutch is gone.

You save on transmission maintenance, and the rear-axle expenses likely to go with it. And the way your engine is oil-cushioned against normal shocks and strains shows up in less engine upkeep.
